### MEMORANDUM FOR CIF USERS

SUBJECT: Software Version Description (SVD) for Installation Support Module (ISM) Central Issue Facility (CIF) Interim Change Package (ICP) LA2-A09-02-02-A

- Enclosed is ICP LA2-A09-02-02-A which provides a formal change to the Central Issue Facility (CIF) ISM
- Acknowledgement of installation of this ICP must be made IAW instructions provided in Enclosure 1.
- This memorandum certifies that the ISM subject software has been thoroughly tested, is considered to be a quality product, and is hereby authorized for release to a production environment.
- 4. Security Implications: NONE.

# 1. Scope.

1.1 Identification. This Software Version Description (SVD) applies to the Central Issue Facility (CIF) running on Army Standard Information Management System (ASIMS) and networked AIX version 4.2 operating system on UNIX platforms.

1.2 System Overview. CIF is part of the ISM Project which is an army-wide Major Automated Information System (MAIS) initiative. The primary objective of ISM is to enhance, through automation, installation management functions. ISM applications consist of standard procedures packaged into functional applications which automate as well as integrate day-to-day installation processes. ISM applications use the Installation Level Integrated Data Base (ILIDB), which is the central repository for data that is common to more than one ISM application, and various local databases that contain data elements unique to the individual ISM applications.

The purpose of the CIF ISM is to provide precise management of organizational clothing and individual equipment (OCIE) in a central issue facility. Benefits expected from using CIF include improved overall property management, increased accuracy and timeliness of CIF information, and decreased administrative costs. CIF functions are computing and maintaining stockage levels, processing and documenting OCIE records, maintaining supply records, and preparing required reports.

- 1.3 Document Overview. This document provides the instructions necessary for the implementation of the formal Interim Change Package (ICP) LA2-A09-02-02-A of CIF. It informs the users of the changes made to the system and provides Point of Contacts (POCs) to be contacted in case of problems.

I CP: Ε.

- 3.3.2 Corrector Descriptions Functional. None.
- 3.3.3 Summary of Changes.
- Copy library member changes.
  - 1. Changed: None.
  - 2. Deleted: None.
- 3. Added: None.
- b. Control library member changes.
  - 1. Changed: None.
  - 2. Deleted: None.
  - 3. Added: None.
- 3.4 Adaptation Data. This paragraph has been tailored out.
- 3.5 Related Documents.
- 3.5.1 Technical Documentation Changes. A new AIX version of Software Center Operator Manual (SCOM), AISM 25-LA2-A09-AIX-SCOM dated 10 March 1998 has been issued. This current version of AISM 25-LA2-A09-AIX-SCOM may be obtained from:
- U. S. Army Information Systems Software Development Center-Washington Attn: AMSEL-SE-IS-SDW-E-I, Stop H-17.

Fort Belvoir, VA 22060-5576.

- 3.5.2 Functional Manual Changes. A new AIX version of Software User Manual (SUM), AISM 25-LA2-A09-AIX-SUM dated 01 Mar 1998 has been issued. This current version of AISM 25-LA2-A09-AIX-SUM may be obtained from:
- U. S. Army Information Systems Software Development Center-Washington Attn: AMSEL-SE-IS-SDW-E-I, Stop H-17. Fort Belvoir, VA 22060-5576.
- 3.6 Installation Instructions. These instructions explain how to install CIF ICP LA2-A09-02-02-A onto the host computer at the installations.

2

Change Package Control Number: LA2-A09-02-02-A

Pre-Install Procedure. Before beginning to install CIF ICP LA2-A09-02-02-A onto the ISM host computer, follow this procedure to make sure you have the information you will need when installing.

STEP 1. Verify Oracle. The Oracle RDBMS must reside on the host and be on-line.

Install Procedure. This procedure installs ICP LA2-A09-02-02-A for CIF R2.02 AIX version 4.2 operating system baseline onto the installation server. This portion of CIF R2.02 must be installed on each server at the installation.

- STEP 1. Login with the login name of "root".
- STEP 2. Select a drive on the system that contains at least 300 meg of available disk space. Change directory to that

drive. Make a directory called "ICP. 0202". Place the following files for ICP 0202 in the directory ICP. 0202.

ci f_0202. cpi o. Z	1279511	21 Se	p 1998
install_cif_0202	2812		p 1998
README. $ci f_0202$	886	18 Se	p 1998

STEP 3. Change directory to ICP. 0202 and type:

chmod 777 install\_cif\_0202 <Enter>./install\_cif\_0202 <Enter>

- STEP 4. The install\_cif\_0202 will complete the following:
  - a. uncompress and uncpio the cif\_0202.cpio.Z file.
  - b. change the ownership of and copy the files in this ICP into the home directory of user "cif".
  - c. record all output from each of the steps performed in a file named "cif\_0202.log" located in the ICP. 0202 directory.
- STEP 5. Results of the installation in  $cif_0202.log$  should be reviewed.
- 3.6.1 Installation Effective Date. This ICP should be immediately implemented upon receipt or NLT 30 days from date of receipt.
- 3.6.2 Security Implications. This paragraph has been tailored out.
- 3.6.3 ANSOC Installation Instructions. All users receive the same baseline with change package number through e-mail and Status Tracking and Reporting System (STARS) Bulletin Board System (BBS). This change package contains the following files:

3

Change Package Control Number: LA2-A09-02-02-A

Ensure that all master file backups have been completed prior to loading this package.

Use these load instructions to develop load procedures that work best for your installation.

Due to various user configurations, each installation must determine appropriate block-size and library allocations.

Users must not, repeat, must not, make changes to the files.

Security impact: None.

- 3.6.4 Special Installation Instructions All Users. None.
- $3.\,6.\,5$  Point of Contact. If there are any problems or questions with the installation, or any shortage to the contents of this

package, call the Army Network and Systems Operator Center (ANSOC), Ft. Huachuca: DSN 879-6798/6858 or 1-800-305-3036.

- $3.\,6.\,6$  Report of Implementation. Implementation of this change package must be reported by completing the change package implementation form. This report must be sent to Ft. Huachuca using Fax or mail.
- $3.7\,$  Possible Problems and Known Errors. This paragraph has been tailored out.
- 4. Notes
- 4.1 Notes. This paragraph has been tailored out.
